

GUSTOSAL

SALINEN AUSTRIA

EDIBLE SALT

Purest evaporated salt for best flavour, seasoning, preserving, as baking enhancement and much more

AUSTRIAN QUALITY

GUSTOSAL

Edible salt

GUSTOSAL edible salt is used for dissolving, mixing, stirring into, preserving, sprinkling etc. in the food industry, bakeries, hotels & restaurants (HoReCa). Extra-fine GUSTOSAL edible salt has a special granulation. Due to its fine granulation, it is used to add flavour to snacks, e.g. potato chips. For organic food producers, Salinen Austria AG offers GUSTOSAL for BIO – an edible salt without any anti-caking additives or iodine.

GUSTOSAL edible salt complies with the Codex Alimentarius as well as individual national norms and regulations. The constant, high quality as well as availability in many different forms of packaging guarantee optimal utilization in food production. Furthermore, GUSTOSAL food salt is available with country-specific-iodization as well as coarse and extra-fine granulation.

GUSTOSAL edible salt is exclusively made of pure dried vacuum salt from the mountains of Salzkammergut - Bad Ischl, Altaussee and Hallstatt, a UNESCO World Heritage Region - produced in an environmentally friendly and sustainable way.
