

AUSTRIAN EVAPORATED SALT

# Poolsalz

SALINEN AUSTRIA

## PURE SWIMMING ENJOYMENT

Pure, natural evaporated salt with maximum solubility

AUSTRIAN QUALITY

# POOLSALZ

Pure, natural evaporated salt with maximum solubility

POOLSALZ helps to disinfect the water in swimming pools and is suitable for all pools with salt-electrolysis systems.

This product complies with the applicable standards for pool water treatment: EN 973 A and EN 14805.

For precise quantities to use, please read the instructions provided by the manufacturer of your salt-electrolysis system.

Due to the high NaCl content of 99.9% along with low sulfate levels, this high-quality, very fine-grade evaporated salt is readily soluble and residue-free, guaranteeing very clean and pure swimming enjoyment.

You don't have to add chlorine to your pool water! The salt-electrolysis system continually transforms salt into chlorine. In this way, POOLSALZ provides you with clean, clear water to swim in. Furthermore, POOLSALZ is pleasant to the skin.

POOLSALZ are exclusively made of pure dried vacuum salt from the mountains of Salzkammergut – Altaussee, Hallstatt and Bad Ischl, a UNESCO World Heritage Region - produced under sustainable and environmentally friendly conditions. The production takes place at a fully automated production line meeting all the latest standards.
