# SALT MADE IN AUSTRIA – WITH PASSION AND A SENSE OF TRADITION.

---

For over 7,000 years, we have been working with passion to harvest our salt from the mountains of the Salzkammergut in Austria. This region sits at the very heart of Europe and is famous around the world for its unparalleled natural landscape – lakes the colour of turquoise, filled with the purest water, and green forests are ringed by spectacular mountain scenery. This is the home of our BAD ISCHLER salt. Immerse yourself in our world of BAD ISCHLER salt, and taste the power of the Austrian Alps.

# BAD ISCHLER A SALT FOR EVERY KITCHEN

Our salt lies undisturbed for millions of years deep inside the mountains of Austria. Protected from every kind of environmental influence, it's refined with loving care to produce BAD ISCHLER culinary salt. With a purity level above 99.6 per cent, our evaporated salt is one of the highest-quality culinary salts in the world.
